

Evaluations (weekly, monthly and Tri-annual) Description and deadlines

5/26/2021

George Wiggans, Technical Consultant

Weekly evaluation

- Released each Tuesday
- Includes usable genotypes loaded by 6 PM preceding Sunday
- Limited to once per animal, no new weekly from later genotype on same animal
- Fee code can not be changed to N after extracted for a weekly
- Unlikely grandsire and wrong breed prevent release
- BBR not released

Monthly evaluation

- Released first Tuesday of the month
- Includes usable genotypes loaded by 6 PM the Sunday 9 days earlier (16 days for April, August and December)
- All animals (except for some bulls) receive updated evaluations each month
- Evaluations of foreign bulls released only to nominator and not after 16 mo of age unless AI Service Fee paid
- Bulls enrolled with NAAB (status other than C) released only for April, August and December
- BBR released

Tri-Annual evaluation

- Earlier cutoff to allow for inclusion of traditional evaluations and evaluations from Interbull
- Release months April, August, December
- Evaluations for bulls in AI service released
- Results displayed online

Why no evaluation

- Genotype not usable eg sire conflict
- Genotype usable, but other conflict including unlikely grandsire or breed error
- Fee code N
- Bull enrolled with NAAB and not triannual release
- Foreign bull > 15 mo. old - no AI service fee paid
- See https://redmine.uscdcb.com/projects/cdcb-customer-service/wiki/Reasons_that_a_genomic_evaluation_was_not_released
